*Russian International Olympic University Scholarships – Academic Year 2021-2022*

Lausanne, 11 February 2021

Dear Friends,

For this year again, ANOC has been invited by the Russian International Olympic University (RIOU) to put forward candidates to study on the 2021-2022 edition of the RIOU's Master of Sport Administration course. Over the years RIOU has provided sports management training to representatives from more than 60 countries. It is a unique pool of specialists equipped with state-of-the-art competencies and imbued with Olympic Values. For additional information on the program, please visit their [website](#).

ANOC is delighted to give the opportunity to all NOCs for another year to apply for scholarships for the academic next year at the Russian International Olympic University. ANOC will have the opportunity to nominate, amongst the 206 National Olympic Committees, three students who will be able to take part in this Master Programme. NOC and National Federation administrators and athletes and officials with a bachelor's degree are welcome to apply.

ANOC will be announcing the recipients of these three (3) scholarships at the beginning of April 2021. After the ANOC confirmation, the three students selected will have to register all their details through the RIOU online platform.

Once the NOC has identified an appropriate candidate, please submit the following documents to the ANOC Office **via email only** at [info@anocolympic.org](mailto:info@anocolympic.org) **before the deadline of the 31<sup>st</sup> of March 2021**:

- A copy of applicant's passport
- A copy of applicant's higher education diploma and transcripts (in English)
- A proof of English language ability (certificate or any other document mandatory to be accepted in the programme).
- Where appropriate: other documents (i.e., letters of recommendation, appreciation letters)
- Applicant's CV
- Letter of support from the applicant's NOC

For your information, those RIOU scholarships cover tuition fees and accommodation on the RIOU campus and ANOC will cover the cost of airfare in economy class for the three selected students (all other expenses will be at the charge of the student).

Finally, please be sure that RIOU University will do his best to make sure every student can come to Sochi and physically participate in the program. However, if for any reason, it is not possible, the University is also prepared so that the student can follow the program remotely.

Best regards,

  
**Gunilla Lindberg**  
**ANOC Secretary General**
